EACH BOTTLE INDIVIDUALLY NUMBERED AND COMES WITH THE CARRY BAG

ROBY MARTON

TREVISO ITALY

COLD COMPOUNDED GIN

ITALIAN PREMIUM DRY GIN

DESCRIPTION = Roby Marton is a "Cold Compounded" Italian Premium Gin obtained through the infusion of an unusual bouquet of 11 classic and exotic botanicals in pure neutral grain pot – stilled alcohol. To maintain unaltered the whole scent of the botanicals infused, the spirit is not filtered before being gently finished with pure spring water. Roby Marton is a divinely smooth Gin, produced in small batched.

UNIQUE FEATURE = Its pale yellow colour.

BOTANICALS = Juniper berries, Citrus peels, Orange peels, Cinnamon, Cloves, Pimento, Anise Seeds, Pink pepper, Horseradish, Ginger, Licorice root.

AROMA = The nose is both spicy and citric, with a nice balance of licorice, ginger and juniper.

PALATE = The palate is dry with an uncommon and persisting exotic spicy flavour bestowed by ginger and pink pepper.

AFTERTASTE = Finishes dry with a citrus back.

TIPS = Try Roby Marton Italian Premium Dry Gin straight up.

PERFECT SERVE = Stir large ice cubes in an over sized wine glass and drain the water in excess. Add Roby Marton Italian Premium Dry Gin and garnish with a zest of lemon of orange, and a slice of fresh ginger. Finish with licorice or cinnamon, and some grains of pink pepper. Mix with premium tonic water and enjoy your G&T.

Mike Bennie's Comments = This is the big-ticket gift for Father's Day, and something that is truly unique and special. It sat me back in my seat for its wild, herbal, spicy personality and dense punch of gin – botanical flavour. Its such a wonderful drink. Martinis thanks.

Roby Marton Gin 47.0% Alc

ROBY MARTON

TREVISO ITALY

COLD COMPOUNDED GIN

Roby Marton is the only Italian Dry Gin. Born from the idea eponymous creato, this gin is the italian representation of the classic English spirit. **Roby Marton** is made using cold infusion as the oldest method; the distillate base of Juniper and Cereals is added of "botanicals" such as cloves, citrus peel, cinnamon, licorice, pink pepper, anise, ginger and red fruits. These remain in infusion for about 10 days to transmit the aromas and fragrances to the distillate. All the components are chosen very carefully by the manufacturer who circulate the regions where it believes that products are more excellent. During the year and depending on the seasonality of the products and their availability **Roby Marton** up its infusion, so it is easy to find small differences between different lots of the very few bottles produced **(about 10,000)**. Another key feature of this is the its colour slightly turbid. In fact no clarifications and pressure filtrations are made but only a light microfiltration that leaves the product with its natural characteristics. Charming drunk alone or with a wooden rod of Licorice, this exclusive Italian product is an excellent alternative to Gin emblazoned across the Channel, dressed in a beautiful bottle with a label worthy of Italian style that made us famous in the world. **Roby Marton Gin** is definitely a product to amaze.

A few steps from **Bassano del Grappa**, the undisputed kingdom of distillers, **Roby Marton**, a Venetian DOC in his fifties, who has always been an expert in the sector of spirits, handmade produces his Gin in Italian key taking care of all the production phases. Nothing is left to chance in the choice of cereals and botanicals, carefully selected and chosen according to availability only of excellent products for distillation by the method of so-called "Bathtub". **Cold infusion** and light **Microfiltration** give the Gin its unmistakable fragrances and faintly turbid color, that wants to enhance its natural craftsmanship. This is the goal of **Roby Marton**. Frank and sincere just like his Gin, **Roby Marton**, has realized his passion for this distillate after some years of home experiments, but now it is already establishing itself in the news, gaining also international success. Fame yes, but with selection, Roby only wants to expose himself to an exclusive clientele that can appreciate the uniqueness of his Gin and not the masses, so do not expect to find this product in every bar as with many of his like.
